

## Celebration of Mathematics Day

Mathematics is the most beautiful and powerful creation of human spirit.

Sarvepalli Radhakrishnan Lab School organised a Mathematics Exhibition on January 4, 2021 for celebrating the Mathematics Day.

Students from around 10 schools enthusiastically participated in the exhibition. They made wonderful models on various topics. The students made both still as well as working models on different topics.

Honourable secretary of BSEH Sh. Rajiv Prasad ji observed the models and asked questions and the students explained their models. Thus they got an opportunity to communicate their thoughts and ideas. It was indeed an exhibition which gave them exposure and confidence to present their mind.

Our school got 3rd position in this exhibition and it was really a moment of immense pleasure and pride for our school.

Honourable secretary of BSEH Sh. Rajiv Prasad ji congratulated the students and gave away the prizes and wished them a bright future ahead. Respected Principal Smt. Meenakshi ji and worthy DMO also showered their blessings on the students and motivated them for keep learning and keep growing.
