

Khushi Wins Prestigious INSPIRE-MANAK National Award

Sarvepalli Radhakrishnan Lab School is beaming with pride as we celebrate the remarkable achievement of one of our own. **Khushi**, daughter of Shri Deepak Sharma, has been selected for the esteemed **INSPIRE-MANAK Award**, a national-level recognition that honors the brightest young innovators in the country.

The INSPIRE (Innovation in Science Pursuit for Inspired Research) **MANAK** (Million Minds Augmenting National Aspirations and Knowledge) scheme is a flagship program by the **Department of Science and Technology (DST)** in collaboration with the **National Innovation Foundation (NIF)**. It is designed to spark a culture of scientific thinking and creative problem-solving among school students across India.

Along with this prestigious recognition, Khushi has been awarded a scholarship of **₹10,000**. This grant is specifically designated to empower her to transform her original scientific idea from a concept into a **functional prototype**.

We are incredibly excited to see Khushi's innovative vision take physical shape and are confident that her project will inspire her peers to explore the wonders of science and technology.

The entire faculty, staff, and student body of Sarvepalli Radhakrishnan Lab School extend their heartiest congratulations to Khushi and her family. We look forward to supporting her as she develops her project and continues to reach new milestones.

All the best Khushi!!!!
