

National Road Safety Month

Road safety is one of the major concerns of 21st century. In order to address this concern '*National Road Safety Month*' was celebrated in our school from January 18 to February 17,2021. It created awareness among the students regarding traffic rules. Due to lack of awareness, many lose their lives and lead to pain and sufferings.

The theme of the road safety month was '*Sadak Suraksha-Jeevan Raksha*'.

There were innumerable activities which were enjoyed and equally comprehended by the students like painting and drawing competition on the theme of the campaign. Additionally, Power point presentation was delivered to promote road safety.

It created awareness among the students about the loss of lives due to rash driving. Students were got informed that by following the safety rules we can minimize the number of accidents and save many human lives.
