1. Read the passage given below and answer the questions that follow:

AIIMS admitted 150 patients with alcohol-related liver failure from 2011 to 2015. Of this, the study said, 96 died within 10 days despite all possible medical intervention. Follow-up of the rest of the patients who were discharged when their condition got stable revealed that nearly 20% died within three to four months and another 20% in a year.

"Once you have got acute-on chronic liver failure due to alcohol, survival is rare. Transplant, the only life-saving treatment option, is not possible immediately because three months of abstinence from alcohol is required", said Dr. Shalimar, associate professor of gastroenterology at AIIMS.
There is no medicine for alcoholism. "Abstinence is the only way to prevent liver failure and deaths caused by that. The government needs to create awareness to prevent excessive drinking."

A recent survey published in Global Heart, a reputed medical journal, showed alcohol use has gone up from 16.1% to 25.6% among urban dwellers in Delhi in the past 20 years. The increase in alcohol use in rural areas in the corresponding period is nearly four times – from 8% to 33.2% – the survey found.

"We admitted 427 patients with acute – on chronic liver failure from 2011 to 2015 at the hospital. Of this, a maximum 150 (40.8%) cases were alcohol-related, followed by hepatitis B virus infection (71, 19.3%), hepatitis E (45, 12.2%), autoimmune hepatitis flare up (17, 4.6%), anti-tuberculosis drugs (16, 4.3%) and hepatitis A (2, 0.5%). In 67 patients (18.2%), the cause of acute liver failure couldn't be ascertained", he said.

The AIIMS doctor added alcohol-related liver failure cases have poorer prognosis. "Most of them required ventilator supports, their blood was thinner and brain damage was higher too", he added. Dr. S. K. Sarin, director of the Institute of
Liver and Biliary Sciences (ILBS), said most alcoholics are calorie – deprived. "Most infections cause leaky bowel. But in case of alcoholics, this problem is severe. Due to this, bacteria easily get into liver from the small intestine, thus aggravating organ failure status, he added.

He, however, stressed the need to create awareness about harmful effects of binge drinking.

Questions :  

(i) What happens to the patients who go to AIIMS with alcohol – related liver failure ?

(ii) What is the best treatment for patients suffering from acute on chronic liver failure due to alcohol ?

(iii) What is the best way to prevent liver failure and death due to alcohol ?

(iv) In which areas of India is the use of alcohol increasing more rapidly ?

(v) What is the effect of binge drinking ?

Trees give shade for the benefit of others, while they themselves stand in the sun and endure the scorching heat; they produce the fruit by which others profit. The character of a
good man is like that of trees. What is the use of this perishable body, if it is not used for the benefit of the mankind? Sandalwood – the more it is rubbed, the more scent does it yield. Sugarcane – the more it is peeled and cut into pieces, the more juice does it produce. Gold – the more it is burnt, the more brightly it shines. The men who are noble at heart do not lose their qualities even by losing their lives. What matters whether men praise them or not? What difference does it make whether riches abide with them or not? What does it signify whether they die at this moment or whether their lives are prolonged? Happen what may, those who tread in the right path will not set foot in any other. Life itself is unprofitable to a man who does not live for others. To live for the mere sake of living one’s life is to live the life of dogs or crows. Those who lay down their lives for the sake of humanity will assuredly live forever in the world of bliss.

Questions:

(i) What do trees do for us?
(ii) Why is a good man compared with gold?
(iii) What lessons do trees teach us?
(iv) What makes life profitable for a person?
(v) What should be the ideals of a good man?

5. Read the passages given below and answer the questions that follow. Do any **two** passages:

(a) The policy of apartheid created a deep and lasting wound in my country and my people. All of us will spend many years, if

Perhaps it requires such depths of oppression to create such heights of character. My country is rich in the minerals and gems that lie beneath its soil, but I have always known that its greatest wealth is its people, finer and truer than the purest diamonds.

1. Read the passage given below and answer the questions that follow:

Polythene shopping bags and wrappers are potential threat to urban environment. Once you have discarded them after use, you do not lose your link with them. They return to you in a variety of ways, though you do not realize it. For example, they choke your drains and provide breeding facilities to deadly germs. A recent study has shown that about 250 tonnes of plastic wastes come out of various colonies of major cities alone every day. This disrupts the sewer system, the essential arteries of city life. These plastic wastes choke the land mass and clog the pores of the wetlands.

Unfortunately, even the villages and small towns are not free from this danger. Millions of...
people returning to their hometowns everyday carry their shopping in colourful bags. This pleases their family and children, who after preserving them for a time, dispose them in wells, rivers, tanks and drains. Many throw them off into the fields. They do it with a sense of pride, to show off. When their neighbours see that their men from the cities regularly bring them those good things of life, they are impressed.

In Delhi, the worst offenders are the upper–income groups of the so–called posh colonies. Though educated, the residents of these affluent areas are unaware of the damage done by the plastic bags. Nearly a million children in Delhi schools carry their lunch boxes in plastic bags. They callously throw them away and cause unhealthy environment.

**Questions :**

(i) When do we throw away our polythene shopping bags?

(ii) What are the essential arteries of city life?

(iii) What do the villagers want to convey to their neighbours by throwing the plastic bags into the fields?

(iv) How do the school children pollute the environment?

(v) Which word in the passage means ‘thrown away’?
Drug addiction is a major social evil of modern times. It has transcended all barriers of caste, colour, creed and sex. It is a problem that is eating into the vitals of society. In the beginning, a person takes a drug out of curiosity. There are some who take drugs simply for the thrill it gives them. The tragedy is that once a person gets used to taking any kind of intoxicating drug it becomes addiction. His body develops dependence on the drug. He has to steadily increase the dose. Even if at any point of his life, he realizes his folly, it becomes extremely difficult for him to give up drugs. It is like being in the clutches of a monster. It is pathetic to see a drug addict, when he does not get his usual dose. His whole body writhes in pain which drives him to madness. Besides, taking drugs is expensive. Therefore, it drives drug addicts to stealing, committing petty crimes and other antisocial activities. It is not surprising that drug addicts become antisocial elements. Drugs completely destroy their mental faculties to think clearly and to rationalize.

Questions:

(i) What harm is the evil of drug addiction doing to our society?
(ii) Why does a person take drugs in the beginning?

(iii) When does drug-taking become addiction?

(iv) What happens when a drug addict does not get his usual dose?

(Unseen Comprehension)

1. Read the passage given below and answer the questions that follow:

Junk food is a term describing food that is perceived to be unhealthy or having poor nutritional value, according to Food Standard Agency. The term is believed to have been coined by Michael Jacobson, Director of the Centre for Science in the public interest, in 1972. The term has since become common usage.

Junk food typically contains high level of fat, salt or sugar and numerous food additives such as monosodium glutamate and tartrazine; at the same time it is lacking in proteins, vitamins and fibre, among others. It is popular with suppliers because it is relatively cheap to manufacture, has a long shelf life and may not require refrigeration. It is popular with and has lots of consumers because it is easy to purchase, requires little or no preparation, convenient to consume and lots of flavours. Consumption of
junk food is associated with obesity, heart disease, Type 2 Diabetes and dental cavities. There is also concern about the targeting of the marketing at children.

What constitutes a junk food may be confusing and according to critics, includes elements of class snobbery and moral judgement. For example, fast food such as hamburgers and French fries supplied by companies such as McDonald's KFC and Pizza Hut are often perceived as junk foods whereas same meals supplied by more upmarket outlets such as Pizza Express or Nando's are not despite often having the same or worse nutritional content. Other food such as Foie Gras, roast potatoes and bread are not considered junk food despite having limited nutritional content. Similarly, breakfast cereals are often regarded as healthy but may have high level of sugar, salt and fat. Many critics believe that junk food is not harmful when consumed as part of a balanced diet and some believe that the term should not be used at all.

Questions:

(i) How is junk food perceived?
(ii) What does junk food typically contain?
(iii) With what is junk food associated?
(iv) When, according to many critics, is junk food not harmful?
(v) Find out a word in the passage which is similar in meaning to 'seen'.

A young man was getting ready to graduate from college. For many months he had admired a beautiful sports car in a dealer's showroom. Knowing his father could well afford it, he told him all that he wanted. As Graduation Day approached, the young man awaited signs that his father had purchased the car. Finally, on the morning of his graduation, his father called him into his private study. His father told him how proud he was to have such a fine son, and told him how much he loved him. He handed his son a beautiful wrapped gift box. Curious but somewhat disappointed, the young man opened the box and found a lovely, leather-bound Bible with the young man's name embossed in gold. Having been angry, he raised his voice to his father and said, "with all your money, you give me a Bible?" and stormed out of the house, leaving the Bible.

Many years passed and the young man was very successful in business. He had beautiful home and wonderful family. He realized that his father was very old, and hence he should have gone to him. He had not seen him since the graduation day. Before he could make arrangements, he received a telegram telling him his father had passed away, and willed all of his
possessions to his son. He needed to come home immediately and take care of things.

When he arrived at his father's house, sudden sadness and reverence filled his heart. He began to search through his father's important papers and saw the still new Bible, just as he had left it years ago. With tears he opened the Bible and began to turn the pages. And as he did, a car key dropped from the back of the Bible. It had a tag with the dealer's name, the same dealer who had the sports car he had desired. On the tag was the date of his graduation, and the words 'PAID IN FULL'.

How many times do we miss spirit’s blessings and answers to our prayers because they do not arrive exactly as we have expected?

5. Read the passages given below and answer the questions that follow. Do any two passages:

(a) 'Paper has more patience than people'. I thought of this saying on one of those days when I was feeling a little depressed and was sitting at home with my chin in my hands, bored and listless, wondering whether to stay in or go out. I finally stayed where I was, brooding: Yes, paper does have more patience, and since I’m not planning to let anyone else read this stiff-backed notebook grandly referred to as a ‘diary’, unless I should ever find a real friend, it probably won’t make a bit of difference.

Now I’m back to the point that prompted me to keep a diary in the first place: I don’t have a friend.

Let me put it more clearly, since no one will believe that a thirteen-year-old girl is completely alone in the world. And I’m not. I have loving parents and a sixteen-year-old sister, and there are about thirty people I can call friends. I have a family, loving aunts and a good home. No, on the surface I seem to have everything, except my one true friend.
Questions:  

(i) Name the chapter.  
(ii) What saying did she think about?  
(iii) How does she refer to the diary?  
(iv) Why did Anne feel herself alone even after having thirty people around her?

(b) Not enough can be said to show how important a baker can be for a village. The lady of the house must prepare sandwiches on the occasion of her daughter's engagement. Cakes and bolinhaz are a must for Christmas as well as other festivals. Thus, the presence of the baker's furnace in the village is absolutely essential.

The baker or bread-seller of those days had a peculiar dress known as the Kabai. It was a single – piece long frock reaching down to the knees. In our childhood we saw bakers wearing a shirt and trousers which were shorter than full-length ones and longer than half pants. Even today, anyone who wears a half pant which reaches just below the knees invites the comment that he is dressed like a pader!
Questions :  $1 \times 5 = 5$

(i) Name the chapter.

(ii) On which occasion must the lady of the house prepare sandwiches?

(iii) What is a must for Christmas?

(iv) When is one said to be dressed like a pader?

(v) Find a word opposite in meaning to 'partially'.

(c) Sometimes the bus seemed on the point of gobbling up another vehicle that was coming towards them or a pedestrian crossing the road. But lo! somehow it passed on smoothly, leaving all obstacles safely behind. Trees came running towards them but then stopped as the bus reached them and simply stood there helpless for a moment by the side of the road before rushing away in the other direction.

Suddenly Valli clapped her hands with glee. A young cow, tail high in the air, was running very fast, right in the middle of the road, right in front of the bus. The bus slowed to a crawl, and the driver sounded his horn loudly again and again. But the more he honked, the more frightened the
animal became and the faster it galloped — always right in front of the bus.

**Questions :**

(i) Name the chapter.

(iii) Why did Valli clap her hands with glee?

SECTION – A
(Unseen Comprehension)

1. Read the passage given below and answer the questions that follow:

Just by the use of colours you can balance your diet. All you need to do is to pay a little attention to the food you eat. Nutrition experts strongly recommend adding colours to your diet. Sweets and candy bars are generally colourful, but remember they do not contain natural colours and hence are not healthy. The key solution is a variety of naturally coloured foods. The deeper the colour, the greater the benefits. Getting more colours in your diet doesn’t mean you have to drastically change your current eating habits.

Have a glass of 100% juice in the morning. Keep a mix of dried fruits on hand for a quick snack. Grab an apple or banana on your way out. Include at least two vegetables in your
dinner. Get into the habit of starting your dinner with a salad. Eat fruit for dessert. Always add greens to sandwiches.

Most red fruits and vegetables contain an antioxidant, which offers protection against ultraviolet rays and Cancer and helps to prevent urinary tract infections and diseases related to the circulatory system. Green vegetables not only look great but also possess excellent antioxidant properties that protect your eyes by keeping the retina in good condition and reduce the risk of cancerous tumours. Orange and yellow group contain beta – carotene, an antioxidant that improves cell communication and thereby helps to stop the spread of cancer. Blue and purple group not only adds an element of tranquility and richness to your plate, but also has an influence on the pineal gland (the third eye) and the nervous system. White group contains sulphur compounds that protect DNA and also contain flavonoids, the antioxidants that protect cell membranes.

Therefore, the more colourful your diet is (all natural colours, of course), the better equipped your immune system is to cope with diseases.

**Questions:**

1. Why are sweets and candy bars not healthy?
2. How do antioxidants help us?
3. How do green vegetables help us?
(4) 4202/(Set : D)

(iv) What improves our immune system to cope with diseases?

(v) Find word from the passage which means 'greatly'.

OR

It is widely acknowledged that education contributes significantly to economic development. The developed world understood much earlier the fact that individuals with proper education have an edge over their non-educated or half-educated counterparts. In terms of literacy, India's achievements as compared to several Asian countries are disappointing. According to economists, the poor performance of India on the literacy field has affected the country's economic development.

India has launched an ambitious project, Sarva Shiksha Abhiyan, to provide primary education to all children. One of the major aims of the government has been to reduce the large number of drop-outs from the schools because it affects the economic development.

Various studies by different economists have shown that investment in education promotes economic growth. In any field, illiterate workers are unskilled and untrained; their
general health is very poor. Literacy as well as education can create more productive labour force having enhanced knowledge and skills which ultimately tend to boost productivity both quantitatively and qualitatively.

Literacy among common people is also necessary for political stability in any country. Literacy increases the thinking power and understanding of the good or bad. When the people are literate, they can easily see through the cunningness of corrupt political leaders, thereby lessening the possibility of their being shortchanged by the latter. Furthermore, educated folks tend to show a greater tendency towards fruitfully associating themselves with the establishment. With the increased participation rate of both men and women in local self-governance institutions, people can avail the opportunity to improve their local economic factors such as roads, electricity, etc.

Questions:
1 × 5 = 5
